

Healthy Rivers Wai Ora Plan Change 1 Waikato and Waipa River Catchment

Justine Young

DairyNZ 

Overview of evidence

- FEP and implementation effort is key to get round all farms
 - Apply GFP principles & result is farm specific actions
 - Tailored FEPs - no need for more minimum standards
 - Auditing and reporting assists public confidence
-
- Mitigation guideline helpful
 - include degree of confidence in mitigations e.g. constructed wetlands

Overview of evidence

- If above 75th %ile then use Overseer - additional actions or relative % change for that farm
- Current rule status is sufficiently robust
 - Checks and balances include certified advisor
 - Additional checks on certified scheme include external audit
 - Overseer manages any N 'upwards creep' if farm is under 75th%
