### Land Use Types 2018

#### Farm Class 4 – Stocking Rate

#### Dairy Grazing revenue as a % of Gross Revenue

## Sheep and beef farmers

- Have responded well to changing circumstances
- Have managed many risks
- Have adapted to new circumstances
- Manage multiple complex projects, environments, constraints and objectives
- Are measured in the changes they make
- Are resilient and resourceful
- So, maintaining flexibility to continue adaptation to the needs of markets, to objectives – theirs and those of their communities – are vital
