Submission

State in summary the nature of your submission and the reasons for it.

I basically support the provision but urge that it be expanded to include the control of another contaminating species, i.e. Canadian Geese. Thousands of Canadian Geese live and breed in the Whangamarino Wetland, Lake Waikare, Lake Whangape, and surrounding areas. These geese consume many tonnes of nutrient laden pasture every night. They then settle on the Lakes and Wetlands where they deposit much of this vegetative intake as faeces into the water. This is an immediate and direct transfer of nutrients and pathogens into the Lower Waikato water system. (Much of the same sequence occurs on the Lake Rotoroa in Central Hamilton).

Decision Sought

State clearly the decision and/or suggested changes you want Council to make on the provision.

I would like the provision to be ammended to include Canadian Geese as a contaminating species therefore ensuring that a plan be devised and implemented to deal with this major pest.
