Introduction.

There is no doubt we support a plan change to meet the vision & strategy for the Waikato/Waipā river catchments.

Our personal vision for the plan if implemented in such a way will incorporate a combined approach of a Healthy Soils, Healthy Rivers Plan change. This will help pave the way for the rest of Aotearoa New Zealand to follow our lead.

Soil restoration from a biological and physical aspect is a critical component of achieving the objectives of the Healthy Rivers Plan.

Having farmed under organic certification for 12 years with a strong focus on water quality leaving our property we believe our experience shows good soil health, pasture diversity, careful use & choice of fertiliser in conjunction with fencing of waterways, wetland areas and riparian planting are all vital components of the Healthy Rivers vision.

We also support all communities and sectors working together to achieve the desired environmental outcomes. We are all responsible.

We support the FEP's. This is a valuable tool based around engagement and practicalities rather than enforcement.
